EXPERIENCE

Senior Software Engineer — PT Astra Internasional2022 - Present

Jakarta, Indonesia

- Building and maintaining enterprise-grade backend services for INSW (National Single Window) 2nd generation at Ministry of Finance
- Designed microservices architecture handling inter-agency data exchange across multiple government institutions
- Integrated API services using Node.js, Express.js, PostgreSQL, Sequelize, and RabbitMQ message queuing
- Implemented Kong API Gateway for centralized authentication, rate limiting, and routing
- Optimized database queries and caching strategies improving response times by 40%

Backend Developer — ILCS (Indonesia Logistics Community Service)2021 - 2022

Jakarta, Indonesia

- Developed RESTful API services and system integrations for logistics applications
- Built data pipelines using Node.js, Express, and RabbitMQ for real-time event processing
- Collaborated with cross-functional teams to design database schemas and API contracts

Full Stack Developer (Co-founder) — Bigsource Project2019 - 2021

Bandar Lampung, Indonesia

- Co-founded a software house delivering custom applications for SME clients
- Built 15+ web and mobile applications using Laravel, WordPress, and Android (Java)
- Managed full project lifecycle from requirements gathering to deployment and maintenance
- Mentored junior developers and established coding standards and best practices

KEY PROJECTS

INSW (National Single Window) 2nd GenBackend Developer / System Integrator

Enterprise system for Indonesia's Ministry of Finance enabling inter-agency data exchange for trade documentation. Built with Node.js microservices, PostgreSQL, RabbitMQ, and Kong API Gateway.
